and what have you

by BOB CRAIG

Although the two men who got in the run-off of governor didn't surprise me, I was surprised at the big lead that Connally carried over Yarborough. Among the other surprises in the election was strong support for Formby in this area and the big vote Dallas Perkins was given.

For those of you who missed the Scout Exposition held here Saturday afternoon, you missed a real fine show. The boys, their leaders and their mothers went all out in getting their booths ready for the show which made a very colorful presentation.

A lot of work went into the booths and those who attended seem to enjoy the exhibits of skills and crafts very much.

The Indian Dancers from Abilene put on a real fine show that has a lot of the little kids still talking.

I hope that the scout council will see fit to continue to hold an exposition in each of the towns in the district rather than go back to one central show. The show here was good for the boys and good for the town—even if it was pretty hard on the mothers.

The painting of the white parking stripes and the yellow no parking areas by the city during the past week or so has done much to dress up the looks of the downtown area. It is amazing what a little paint can do. (I am sure that the men who are putting it on will tell me that it is not just a little paint.)

For those who like bargains, and who doesn't, the next two week ends will be good times to shop in Hamlin while the merchants are putting on their "Auction Dollar Days."

This is an opportunity to not only pick up some bargains but to receive a bonus in the form of "Auction Dollars" with which you can have a big time at an old fashion auction and carrying home some valuable free merchandise.

A week from Saturday the merchants will have one of the top western swing trios to perform at two free shows in the afternoon. The well known group adds comedy and showmanship to their exceptional musical talents.

MAYOR SETS JUNE 4-9 CLEAN-UP

Mayor John V. Howard Jr., announced this week that he is proclaiming June 4-9 as Clean-up Week here in Hamlin.

Max Murrell has been named to head the Jaycee committee that will formulate the plans for the drive and coordinate the work between the various civic groups in Hamlin, according to Bob Craig, president.

Craig said that present plans do not call for a parade and Miss Beauty contest as has been the case for the past two years.

Because of the high priority given the need for a clean-up campaign here in Hamlin, Craig added that most of the club's efforts will be devoted to actual clean up work and the urging of other groups to aid in the drive.

More complete plans of the campaign will be announced later.

Mrs. Formby Improving Following Friday Wreck

Mrs. Marshall Formby, was reported to be progressing satisfactorily at Hamlin Memorial

Hospital Wednesday morning.

Mrs. Formby and their two children, Frances, 6, and David, 4, were painfully injured when their 1961 Oldsmobile struck a utility pole on Highway 83 just inside the city limits. The accident occurred shortly after 1 p.m. Friday 210 feet south of the McCaulley Y. Mrs. Formby and the children were going from Austin to Plainview on the eve of the Democratic primary election in which Marshall Formby was a candidate for governor.

Formby was in Dallas at the time winding up his campaign in that area and was preparing to meet his family in Lubbock and go from there to their home in Plainview. He came immediately to Hamlin by chartered plane.

Cause of the accident has not yet been determined as the investigating officers have not been able to question Mrs. Formby.

The children were thrown through the windshield receiving multiple cuts about the face. The stitches were removed from the wounds Tuesday and Formby said they were feeling much better.

Mrs. Formby suffered a ruptured liver and severe chest injuries, including broken ribs. She was in surgery for two and one half hours Friday night. Local doctors were assisted by a specialist from Abilene.

She received six or seven blood transfusions prior to the surgery according to Formby who said Wednesday that he could not be very sure about the number as "everything has been sort of a daze."

Formby said "I have not thought about anything except concern for my family. Now that the critical period is over and unless complications develop she's (his wife) going to be all right." He said his wife passed the crisis Tuesday but the road to recovery would be a long one.

It will probably be next week before any plans can be made about the family's return home. Formby said he had

NEINDA PHILOSOPHER CLAIMS SCIENTIFIC FARMING OR SCIENTIFIC FISHING NOT ALWAYS SUCCESSFUL

Editor's note: The Neinda Philosopher on his Johnson grass farm on route one discusses scientific farming this week, a subject rather strange for him.

Dear editor: A lot of people lately have been talking about scientific farming. I've been noticing, and I have been giving this idea considerable thought.

They say, a farmer has to get scientific if he intends to make it on the land these days, and I guess they're right in one way, but in another way I'm afraid they'll find it takes more than science to farm. What more, I can't put my

finger on right now. I mean, scientific farming is sort of like scientific fishing. If you've got a high-powered boat to get you to the fishing spots and all the modern gear and tackle to catch them with, you can catch some fish, maybe more than the man sitting on the bank with a pole, but you won't catch them all the time.

You can have all the farming equipment available to man, all the scientific know-how on insects, poisons, fertilizers, soils, etc., but that doesn't mean you're going to wind up

every year with a profit, or even with much of a crop some years.

I read in a newspaper last night where a farmer was talking to a group of city people studying the farm problem and he told them "it's not just a matter of intelligence as to whether you make a success of farming or not," and of course he's right. Intelligence helps, I suppose, I'm not too experienced along that line, but I doubt if you could say any more than you could say the most successful business man in town is the most intelligent.

Or take politics. Politics is sort of like farming. Intelligence helps, provided you haven't got too much, but there's a whole lot of luck involved. That is, the successful politician's luck, not necessarily the people's.

Understand, I'm in favor of scientific farming. It works, I know, I've seen my neighbors do it. But it takes more than science to farm, just as it takes more than science to raise a kid. What that extra is, don't ask me.

Yours faithfully,
J. A.

Agent Urges Livestock Men To Fight S'Worm

County Agent, Kirby Clayton, says that over 200 new screwworm cases developed in southern Texas last week with outbreaks ranging from Brazoria County on the Gulf Coast to the Pecos River in Terrell County.

Although sterile flies are being released in all infested areas, the continued cooperation of local livestock producers is essential, Clayton said. Animals should be checked often and specimens of larva found in wounds should be submitted to their county agent who will have them analyzed and identified.

In addition, Clayton urged all livestock owners to spray animals with an approved insecticide to hold down the screwworm population and permit better use of the limited number of sterile flies available. Fly production at this time is approximately 15 million per week. Authorities say that as of April 24, they were producing 20 million per week. A target date in early July has been set to have the 75 million per week capacity sterile fly plant open in Mission.

EXTENSION SERVICE URGES 3T TEST IN BUYING HAY

College Station—Visual in- spection doesn't tell the story of what is inside a bale of hay. The true feeding value of hay is determined by several fac- tors, points out Shannon Car- penter, area dairy specialist for the Texas Agricultural Ex- tension Service, and challenges hay buyers to become 3T pur- chasers.

Carpenter explains the 3T formula this way. The first T is for test. If a ton of hay test- ing 4 percent crude protein is purchased, 300 pounds of cot- ton seed meal will have to be fed with it to make it equal the protein in a ton of hay test- ing 10 percent protein. It's good business, says Carpenter, to ask the hay seller for an analysis on his product.

The second T is for time. Time the hay was cut. Time since fertilizer was last ap- plied to the crop. Time since the last cutting, and of major importance, time of season in respect to the time the hay will be fed. Ask some questions, advises Carpenter, and if the

right answer isn't forthcoming, do some more shopping.

Carpenter's third T stands for ton, the usual weight basis on which hay is bought. One dollar for a 60 pound bale of hay equals \$33 a ton, but a dollar for a 40 pound bale eq-

uals \$50 per ton. The weight of the individual bale of hay thus is very important. Buy by weight instead of the bale.

The 3 T hay buyer, concludes Carpenter, knows what he has bought, and how much. A visit with the local county agent is suggested as a source for ad- ditional information on quality hay production as well as good buying practices.

High School students will enjoy the recreational facilities of Cisco Lake and Park and their meal will feature fried chicken. The menu has been worked out by a committee composed of one representative from each class with Mrs. V. R. Leverett as teacher representative. Serving on the committee was Judy Garner, Sharon Leverett, Landra Baitz and Cynthia Letz. High school students and teachers then volunteered for the food or foods they wished to bring. The committee will be responsible for assembling the foods and clean-up that day.

The Old Glory Seniors wish to thank the many individual friends and merchants in Hamlin who have aided them the past years, especially the past

two years, in class projects. They appreciate very much the kind and generous spirit of the Hamlin folks. Without this wonderful cooperation the seniors would not have been able to successfully complete their activities, especially the yearbook. The seniors also wish to urge the Old Glory folks to patronize these good friends in Hamlin and thank them personally for the help they have given. Mrs. V. R. Leverett, class sponsor, adds her "Thanks."

SCHOOL NEWS

Mrs. Cecil Klump and Mrs. V. R. Leverett accompanied by Peggy Pringle, Mary Boles, Sharon Leverett and Larry Quade drove to Austin Thursday where the students participated in Interscholastic League events on Friday and Saturday. The students were regional winners at Stephenville and qualified for state competition.

The return home was most pleasant as the group placed in every event entered. Larry Quade placed third in Prose Reading with a selection from Winston Churchill. He had the disadvantage of drawing first speaker and also five others read from the same author. Larry is a sophomore student at Old Glory. Sharon Leverett and Mary Boles placed second in Class B Tennis Doubles. They were defeated in their final match with Lakeview. Peggy Pringle placed first in Class B Tennis Singles. She not only received an individual medal, but received a beautiful plaque which will be placed in the trophy case at the school. This is third year that Peggy has reached state level, but the first time to go all the way to the top with a first. Congratulations are certainly in order for all four of these students. The Old Glory faculty and students are very proud of them and know the people in the community feel the same way.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN—Annual payments of corporation franchise taxes helped knock down the enormous deficit in the state's General Revenue Fund in just 12 days.

On April 24, State Treasurer Jesse James reported a deficit of \$80,341,045. Twelve days later, the overdraft was down to \$28,053,885.

James noted that the deficit was markedly lower than the \$98,000,000 peak reached a little more than a month ago. But he did not state when the next big payment will be made out of the revenue fund... which might make the deficit soar again.

However, State Comptroller Robert S. Calvert said the

state will send more than \$34,000,000 to public schools early in the summer.

STATE WINS ESCHEAT SUIT—Texas' General Revenue fund will reap \$3,665 as a result of the state winning its first judgment under the new escheat law.

Although the judgment by the 53rd District Court at Travis County was for \$103,665, the State General Revenue Fund benefits by only \$3,665. Reason is that the first \$50,000 escheated must be kept in the treasury in case owners are located. Another \$50,000 annually must be allocated to pay for the cost of administering the program.

Funds were placed in the treasury under an old law which had no provision for disposition. But the escheat law passed in 1961 paved the way for use of the money.

Attorney General Will Wilson immediately started seeking more escheat money. He asked the U. S. Supreme Court to determine whether Texas, Pennsylvania or New Jersey has the right to escheat \$37,853 that Sun Oil Company owes to more than 1,800 people whose whereabouts are unknown.

Texas claims the money because the transactions were made here. New Jersey filed suit because Sun Oil was chartered there. Pennsylvania wants to attach it because the company headquarters in that state.

IMPORTED STEEL TO BE BANNED — District Judge Herman Jones of Austin has given notice to both sides of the case of the Texas Association of Steel Importers, Inc., versus the State Highway De-

partment that he will uphold the Highway Commission's authority to order a ban against imported steel in constructing state highways.

Steel importers challenged this authority when they brought suit in January. A five-day trial in March ended in a hung jury.

Highway Commissioner Herb Petry Jr. testified that some imported steel was found to be "inferior," and stated that it wasn't "worth the risk."

Judge Jones concluded that the importers had failed to show the invalidity of the highway department's order. He is expected to enter judgment for the state next week.

COMMISSION ADOPTS TEACHER SERVICE—Texas Employment Commission has undertaken a new statewide program to answer the problem of placing teachers for the state's 2,500,000 children.

TEC Administrator R. L. Coffman announced that the commission will run a placement service as a clearing house for applications from teachers. Also they will list vacancies.

New plan is expected to afford teachers a wider selection of teaching opportunities and provide school administrators with a choice of instructors from all over the state.

Local offices of the employment commission are stocking application forms, which also may be secured from the Austin office.

UT LEASES UP FOR SALE —Some 35,000 acres of oil and gas leases owned by the University of Texas will be offered for sale at a public auction in the Commodore Perry Hotel in Austin on June 26.

All of the 101 leases on West Texas land parcels, ranging from 82 to 343 acres, will be sold for a term of five years, or as long as the oil or gas on the lands is produced in paying quantities.

Big difference in this 45th public auction is that the royalty from gross production has been raised from the one-eighth charged previously to

one-sixth. Land Commissioner Jerry Sadler insisted on the change since state public school lands long have been sold on a one-sixth basis.

Short Snorts
The New York Stock Exchange made a survey of security transactions in Texas and reported that the number of stockholders in the state zoomed from 160,000 in 1956 to 375,000 in 1959, with one Texan in every 26 a shareholder.

State Highway Department is arranging with Civil Defense officials to make departmental buildings available as public fallout shelters in the event of enemy attack.

Twenty-one inspection stations were closed by the Department of Public Safety as it began a crackdown on stations suspected of improper inspection of motor vehicles.

Albert B. Fay of Houston, Republican national committeeman, asked Gov. Price Daniel to proclaim May 26 "Republican Day" in Texas.

Governor Daniel saluted the 176 livestock markets in the state and designated the week of May 7-12 "Livestock Market Week."

Army Seeking Men for Band

The U. S. Army is now offering young men with musical talent one of the finest opportunities to fulfill their military obligations and, at the same time, receive five months of outstanding musical training.

Young men may now enlist for a direct assignment to the Fourth U. S. Army Band at Fort Sam Houston (San Antonio, Tex.) according to Sgt. Billy R. Smith, local Army recruiter.

An all-out effort is now underway to fill the vacancies that exist in the Fourth U. S. Army Band at the earliest possible date. This affords a music-minded young man an excellent opportunity to become a member of one of the finest bands in the entire Army.

HEALTH DEPARTMENT URGES EYE ACCIDENT PREVENTION

Hellen Keller, the world's most famous blind citizen, has said, "If one tenth of the money we now spend to support unnecessary blindness were spent to prevent it, society would be the gainer in terms of cold economy, not to mention considerations of the happiness of humanity."

Any such attempt at prevention must begin with accidental eye injuries incurred in the home, in the factory, and on the farm.

Statistics indicate that the United States annually has over 300,000 accidents which involve damage to the eyes. This amounts to an accident every 30 seconds or 1000 accidents per 8-hour work day throughout the year.

It has also been estimated that the average period of disability for an eye injury is 15 weeks, in comparison with an average of five weeks for all accidents affecting other parts of the body, and that more eyes are lost from these accidents than are legs, hands and feet combined.

A national health survey has shown that occupational injuries are responsible for 20 percent of all cases of blindness in one eye and eight percent of all cases of blindness in both eyes.

The toll to national efficiency caused by industrial eye injuries is readily apparent in the annual loss of a staggering 53,760,000 man hours — the equivalent of 26,880 full-time employees.

Accidents in the home, most of which could be prevented, account for another large percentage of eye injuries. National figures indicate that 18 percent of all cases of blindness in one eye and five percent of all cases of blindness in both eyes due to all causes were the result of accidents in the home.

Finally, accidents as the result of play and games at school add to the grim total. More than a thousand children lose the sight of one or both eyes each year.

"It would seem incredible," resources should be allowed to the Division of Public Health says one leading eye surgeon, go on in any economy-minded country." (A weekly feature of the Division of Public Health Education, Texas State Department of Health.)

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HAMLIN HERALD

By MRS. ELMER JOINER

Another week has rolled around and the dreaded hail hasn't come on the wheat yet. This time of year, when the wheat begins to get in the final stages, every cloud that comes up could mean disaster, and some of that kind of clouds have been in evidence the last two days. But as the farmer lives mostly on hopes anyway, we are just hoping it will pass us by. Although, some scattered light hail did fall Saturday afternoon.

Election day has come and gone again, although since there was no competition in Jones County offices, it was a rather quiet affair, locally, this year.

Visiting with her sister in church Sunday, Mr. and Mrs. Ray Houchin and son, Brad, Lubbock, came with Rev. and Mrs. Lewis.

It was also good to see Mr. and Mrs. Bill Kelly back in church with some of their family, which included Mrs. Pat Meek and two children, Mr. and Mrs. Don Kelly and two children.

Another visitor was little Mark Westmoreland, who came with his little playmate, Melinda Wright.

Mr. and Mrs. Roy Taylor of Muleshoe, ate lunch and visited a few hours with Mr. and

Mrs. Elmer Joiner last Monday. They were close neighbors in Yoakum County, back in the depression days.

Mrs. Woodrow Goodwin, accompanied Linda last Monday on the seventh grade annual picnic, which was held at the Johnson Park.

We are all happy for Penny Ford, over her being chosen as cheer leader of the Pep Squad, of the Hamlin High School.

Mr. and Mrs. Flavil Holmes went to Plainview Saturday night to spend the night with his brother, Mr. and Mrs. Clinton Holmes, and to get his mother, Mrs. Alma Holmes.

We are glad to report that C. C. Renfro, who has been seriously ill in the Hamlin Hospital, to be much improved, and he and Mrs. Renfro are back in the nursing home in Roby.

Mr. and Mrs. J. D. King, Mrs. Addie Jobe, all of Midland, spent Saturday night with Mrs. King's sister, Mr. and Mrs. Fred Rosenbaum. They had come to attend the singing convention in Hamlin Sunday.

Mrs. Elmer Joiner attended the Home Demonstration Club tea, held in Anson last Thursday, to commemorate National Home Demonstration Week.

Mrs. Clarice Gentry visited with Mr. and Mrs. Winson

Mr. and Mrs. E. A. Henry went to Seymour Sunday to attend a family reunion which was held at the park in Seymour, and is an annual affair.

Mr. and Mrs. Mel Jones also attended a family reunion Sunday, at the lake near Brownwood. This was to celebrate the birthday of Mrs. Jones' mother, Mrs. Annie Ash, and is also an annual affair.

Mrs. Lois Hampton of Abilene is in New York visiting with her children and to attend the wedding of her son, Billy. Billy was married Sunday, May 6, to Miss Wally Sender, of Brooklyn, New York, the ceremony being performed in the Saint John's Lutheran Church, in Brooklyn.

He is serving in the armed forces, but will be discharged in the fall.

The cemetery working was held Saturday, May 5 at the Fairview cemetery, south of Tuxedo, with a fair sized crowd attending. Although it is only a shadow of what it used to be in bygone years. Several visitors were there from other places, to visit with friends and pay their respects to those gone on.

Among those attending was Mr. Arthur Treadwell, Fort Worth, who recently underwent surgery on his throat. Although he had had his voice box removed, and cannot speak, he has recovered from the surgery and is looking real well, and was enjoying greeting old friends.

Other old timers present.

from our part of the county, a former pastor of Fairview Church. Those going were Mr. and Mrs. Walter Copeland, Haskell. Rev. Copeland is a retired Baptist minister, who pastored our church many years ago.

Mr. and Mrs. Clyde Whitaker, Shallowater, were present, also Mr. Joel Stanford, who lives in Oklahoma. Mr. Stanford was reared in the Plainview community.

Mrs. A. B. Hogan of Spur, Mr. and Mrs. Bob Hale and son, Goodwin, Crosbyton, ate lunch with their brother, Mr. and Mrs. Woodrow Goodwin, Thursday.

A group from our church went to Swenson Baptist Church Saturday night, to attend revival services, held by Rev. Doyle Combs, pastor and

Church. Those going were Mr. and Mrs. Winson Gray, Mr. and Mrs. Woodrow Goodwin and Linda, Mr. and Mrs. Fred Rosenbaum and Mr. and Mrs. Elmer Joiner.

Little Johnny Doyle Combs came home with the Goodwins to visit.

Just one last thing, from what we hear, we learned why Mr. Joe Ford is so anxious to go back to Hill County, to the Coon Creek homecoming every year. But if anyone wants to know they had better ask Mrs. Ford.

Jackie Buske cut his foot on glass while attending a Hamlin School picnic Monday. Doctor had to take 3 stitches to close the wound.

A WORD OF APPRECIATION

From the bottom of my heart I wish to thank the many friends who supported me Saturday in my race for State Representative of the 83rd District. With your fine help I was able to place in the runoff.

May I assure you I appreciate this confidence and I do earnestly solicit your continued support in the election June 2.

Sincerely yours,

Here now!

This year there's a car that changes your mind about the cost of beauty—and advanced engineering, too. It's the magnificent, masterful Mercury Monterey for 1962, the only new car that's got everything going for you. It's beauty that beckons, then take a long, loving look. The Monterey is sheer elegance in steel, a timeless sculpture that turns your garage into an art gallery. If it's advanced engineering that you dote on, peer in and look for yourself: Self-adjusting brakes, 30,000 miles between major lubrications, 6,000 miles between major oil changes. Dozens of industry-leading innovations like that. And, when it comes to investment, that's really where the new Mercury Monterey has everything going for you. It is priced just a whit more than ordinary-looking, ordinary-riding, ordinary-featured cars. This is the year you don't have to compromise between beauty and a bargain, between elegance and economy. Mercury Monterey. The one car that's got everything going for you.
